

Revenue over 9 months 2026 : €2.55 billion (+2.2% organic growth)

Growth in France and Internationally

Paris (France), October 28, 2026, 5:45 p.m. - Groupe CRIT (FR0000036675 – CEN), a major player in temporary work and airport services in France and Internationally, announces its revenue for the 3rd quarter of the 2026 financial year (July 1st – September 30th, 2026).

Revenue (M€) ⁽¹⁾	2026	2025	Variation	Variation at constant scope and exchange rate
1 st quarter	785.6	766.1	2.5%	3.4%
2 nd quarter	880.7	870.6	1.2%	1.4%
3 rd quarter	885.1	868.0	2.0%	2.0%
TOTAL	2 551.4	2 504.7	1.9%	2.2%

The Group's consolidated revenue for the third quarter of 2026 stands at € 885.1 million ⁽¹⁾, showing a fully organic ⁽²⁾ increase of 2.0% compared to the same period in 2025. In a still uncertain economic context, this development constitutes a good performance driven by the improvement in business recorded both in France and Internationally.

In France, revenue for the third quarter grew by 1.8% to € 488.8 million. Internationally, the Group recorded growth of 2.2% - at constant scope and exchange rates - with revenue reaching nearly € 396.3 million.

In total over 9 months, the revenue amounts to € 2,551.4 million, growing by 1.9% (+2.2% at constant scope and exchange rates) compared to the same period in 2025.

Temporary work : continued improvement in business activity (+2.2% organic growth)

In the Temporary work segment (86.3% of total business), third-quarter revenue stands at € 764,0 million ⁽³⁾, up 2.2% compared to the same quarter in 2025 (+2.2% on an organic basis).

France : third consecutive quarter of growth

In France (52.6% of the division's activity), third-quarter revenue reached € 401.5 million, up 1.7% compared to the same period in 2025, in a stable market ⁽⁴⁾. This third consecutive quarter of growth confirms the Group's agility and its ability to defend its market positions despite varied market conditions. Activity was driven primarily by the industrial sector notably aeronautics and logistics, while demand in the construction and retail sectors remained weak.

International : +2.8% on an organic basis

Internationally (47.4% of the division's activity), third-quarter revenue reached € 362.5 million, up 2.8% at constant scope and exchange rates. The positive trend in business activity across the Group's main markets has continued in recent months.

In Italy, third-quarter revenue grew by 2.2% compared to the same quarter in 2025. Meanwhile, the United States maintained its momentum within an improving market, posting an organic increase of 10.3%. In Spain, business remains on a positive trend, with revenue up by 5.1%.

Over 9 months of the financial year, cumulative revenue from temporary staffing operations in France and Internationally reached € 2,214.3 million, up 2.2% (+2.5% on an organic basis).

Airport services : stabilization of revenue at a consistently high level

After a second quarter decline of 3.0%, airport services (14.2% of total business) show stable revenue in the third quarter (+0.4% at constant scope and exchange rates) at € 125.5 million. Given the current international context (impact of the war in the Middle East, rising fuel prices, etc.), this ability to maintain high levels of activity constitutes an excellent performance.

Over the first nine months of the financial year, airport revenue remained stable at € 348.7 million.

Considering this successful quarter, the Group reaffirms its confidence in its ability to continue its development despite limited visibility on economic conditions in the coming months.
